

# Come Join Our Team

**Mohawk Valley GIS, a growing technology company  
in Historic Bagg's Square, Utica NY**

We are seeking an inquisitive, talented individual, for website, web map & native app development

## Paid Programming Internship

Qualified Candidates should

- Be working towards a 4-year degree, anticipated graduation in Spring 2017 preferred
- Demonstrate resourcefulness and maturity
- Have transportation and laptop
- Have three references and minimum 3.0 GPA
- Proficiency with HTML/CSS, some experience with Javascript and PHP preferred, some experience with extending a CMS, big plus if you've dabbled in native iOS and Android app development

Position is part time (average 15 hours), primarily on-site work. Flexible hours between 9 a.m. and 5 p.m. Potential for full time hours in summer 2017 and hire for fall 2017.

**About Us. Strut Your Stuff.**

### Meet Linda

Linda Rockwood, owner of Mohawk Valley GIS, is a cum laude graduate of Bucknell University. She has been applying technology to meet customers' needs for 30 years, working initially with Fortune 500 companies, eight years with school districts, and since 2003, assisting local governments, organizations and small to mid size businesses primarily in NY State.

### How to Apply

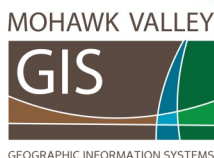

Please email resume, list of CS courses and brief cover letter to [Linda@mohawkvalleygis.com](mailto:Linda@mohawkvalleygis.com). No phone inquiries. Cover letter should indicate why you would be a great addition to our team. Hint: look at our website.

### Meet the Project Team

Dave provides programming expertise, ranging from custom iPhone/iPad and Android mobile device app development to browser based app and web map development along with standard website development, able to work with all flavors of standard databases. John rounds out the technical team, providing GIS data creation and analysis, custom map design work and CMS website and interactive map development.

Sales, marketing and customer relations support are handled by Cathy and Linda.

We have one or more interns joining us regularly, from SUNY Poly and from SU's CS grad program.
